

November 2019

Dear Friend:

We are excited to announce that we are renovating one of Fort Mackinac's more popular exhibits – the Kids' Quarters. With your help we can create a fresh space for kids of all ages to explore many facets of life at Fort Mackinac.

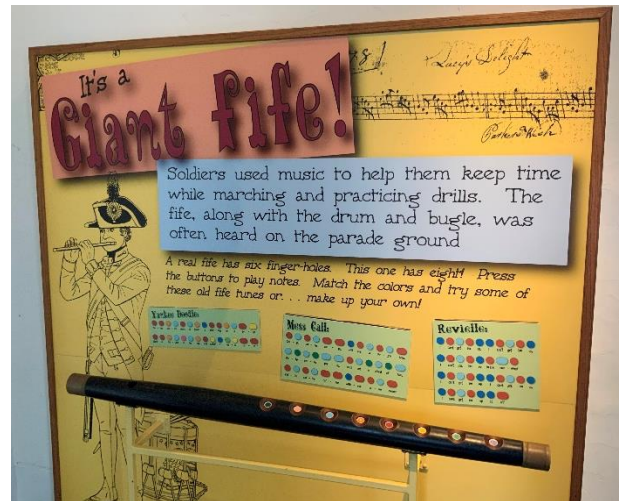

The Kids' Quarters is housed in the Officers' Stone Quarters within Fort Mackinac and features hands-on displays and interactive games. As you can imagine, a space this well loved and used, especially by our school groups and other young visitors, receives a lot of wear. Over the next 18 months the space will receive new paint and carpeting and several new interactive exhibits while some of the favorites currently in place will be repaired or updated. You will see a glimpse of the work in 2020 and the completely refreshed space will debut in time for the 2021 season.

Interactive exhibits will allow visitors to explore what life was like at the Fort, from the type of clothing residents and soldiers wore and the games that were played to getting up close with the artifacts that represented daily life.

Your donation to this project will allow us to continue to provide an interactive hands-on space for kids.

We hope you will help us fund the renovation to our Kid's Quarters space at Fort Mackinac. We appreciate all you have done over the years in supporting Mackinac Associates and Mackinac State Historic Parks. Thank you for your support because your efforts make history come alive for all of us.

Sincerely,

Peter Pellerito, President
Mackinac Associates

Phil Porter, Director
Mackinac State Historic Parks
